

Itinerary proposal
Komodo - 4 Days

Scuba Diving

Day 1 : Embarking & Diving/Snorkeling

Get picked up at your hotel or airport, preferably in the morning. Cruise west and enjoy the beach, snorkeling or diving on Bidadari or Sebayur Kecil Island.

These islands offer a calm environment but boast a lively coral reef for divers and snorkelers. Enjoy a first gorgeous sunset with a drink on board or at sea on kayaks or paddle boards. Night dive is optional.

Day 2 : Komodo Strait

Komodo Island lies in the middle of the straits between Sumbawa and the Flores Islands. The sea is funneled between the two islands, creating rich currents and coral reefs that we explore, such as Tatawa Besar, Batu Bolong and Golden Passage.

At the end of a superb day's sailing, surrounded by the colorful fish, we anchor safely in Gili Lawa Island Bay, famous for its views of the glowing sunset.

Day 3 : Manta Madness & Legendary Komodo Dragons

Early in the morning, visit the National Park on Rinca island, meet the famous Dragons and other wildlife. A Ranger will guide you through the Park. There are Short, Medium and long hikes to choose from.

Spend the afternoon in the tranquil Bay of Siaba Besar. One of the best Hard Coral Gardens to snorkel surrounded by Sea Turtles.

Day 4 : Farewells At Labuan Bajo

We will cruise back to Labuan Bajo for our last delicious breakfast and check- out before noon.

After sharing photos and farewells, our crew will arrange your transfer to your hotel or airport, and on your return trip back home, your head will be filled with unforgettable memories of the trip of a lifetime.
