

A scenic photograph of a tropical island, likely Komodo, serves as the background for the right half of the slide. The image shows a lush green forested island with a small, crescent-shaped beach. The water is a vibrant turquoise color, and a small wooden boat is anchored in the bay. The sky is blue with some white clouds.

Itinerary proposal
Komodo - 4 Days
Snorkeling, Land & Sea

Day 1 : Snorkeling & Flying Foxes

Get picked up in style at your hotel or airport, preferably in the morning. After a quick introduction of the boat and the crew, the cruise will start in direction of a beautiful snorkeling site to get the first sight of the rich and colorful marine life of komodo national park.

A very special sunset is planned in Kalong Island – where thousands of giant bats aka Flying Foxes depart for their nightly hunt.

Day 2 : Rinca & Central Komodo

Early in the morning, visit the National Park on Rinca island, meet the famous Dragons and other wildlife. A Ranger will guide you through the Park. There are Short, Medium and long hikes to choose from.

Spend the afternoon in the tranquil Bay of Siaba Besar. One of the best Hard Coral Gardens to snorkel surrounded by Sea Turtles.

Day 3 : Manta Rays & Pink Beach

In the morning, cruise to Manta point for a great chance to snorkel with these gentle giants. Enjoy lunch between sand banks surrounded by turquoise waters. Perfect for a swim or a memorable photo shoot.

Towards the afternoon, Cruise to Pink Beach / Pantai Merah. The pink color comes from the red coral turning into sand. Another great place to snorkel or lay in the colorful sand.

Day 4 : Farewells At Labuan Bajo

We will cruise back to Labuan Bajo for our last delicious breakfast and check- out before noon.

After sharing photos and farewells, our crew will arrange your transfer to your hotel or airport, and on your return trip back home, your head will be filled with unforgettable memories of the trip of a lifetime.
