This area offers exceptional opportunities to encounter whale sharks, especially around the local bagan—traditional fishing platforms where small anchovies are harvested. These platforms often attract whale sharks, drawn by the abundance of food. We dedicate time at these sites, snorkeling and diving in respectful proximity to observe these gentle giants up close—a truly humbling and unforgettable experience.

KALIMAYA TO PANTAI MERAH & PULAU BANTA

Your morning begins with a gentle plunge into the turquoise waters of Kalimaya's house reef—an underwater world teeming with color and life. Whether you choose to dive or snorkel, this serene start sets the rhythm for a day of exploration.

From there, you'll sail westward to a quieter corner of Komodo's famed Pantai Merah—the iconic pink beach, minus the crowds. Wade into the shallows, snorkel above thriving reefs, or simply wander the blushing sands in peaceful solitude.

Later in the day, adventure picks up at Cape Area and Pulau Kambing, where diving and snorkeling can be arranged based on the tides. These sites are alive with strong currents, flourishing coral reefs, and an abundance of marine life. You'll also have time for stand-up paddleboarding, kayaking, or a slow barefoot stroll along the untouched coastline.

As the sun dips low, Jakare sets her course toward Pulau Banta, an uninhabited volcanic island, where you'll drop anchor for the night beneath a starlit sky.

DAY ● 04 - 05

PULAU BANTA AND NORTH KOMODO

Awaken to the ancient beauty of Pulau Banta, a dramatic volcanic island shaped by time. Explore its crescent bay, its narrow inlets, and golden beaches where you'll likely be the only soul around. With no Komodo dragons reported here, it's a safe and peaceful haven.

By afternoon, Jakare begins her eastward journey into the wild heart of North Komodo, home to some of the most exhilarating dive sites in the region.
