Day
01

Rinca & Kalong area

Welcome onboard Celestia. We depart from Labuan Bajo to Rinca Island. After a delicious lunch, we will set foot on Rinca Island, where we will spend a few hours trekking in search of the legendary Komodo dragons. A local ranger will explain their unique role in the ecosystem and how they came to reside in this part of the world.

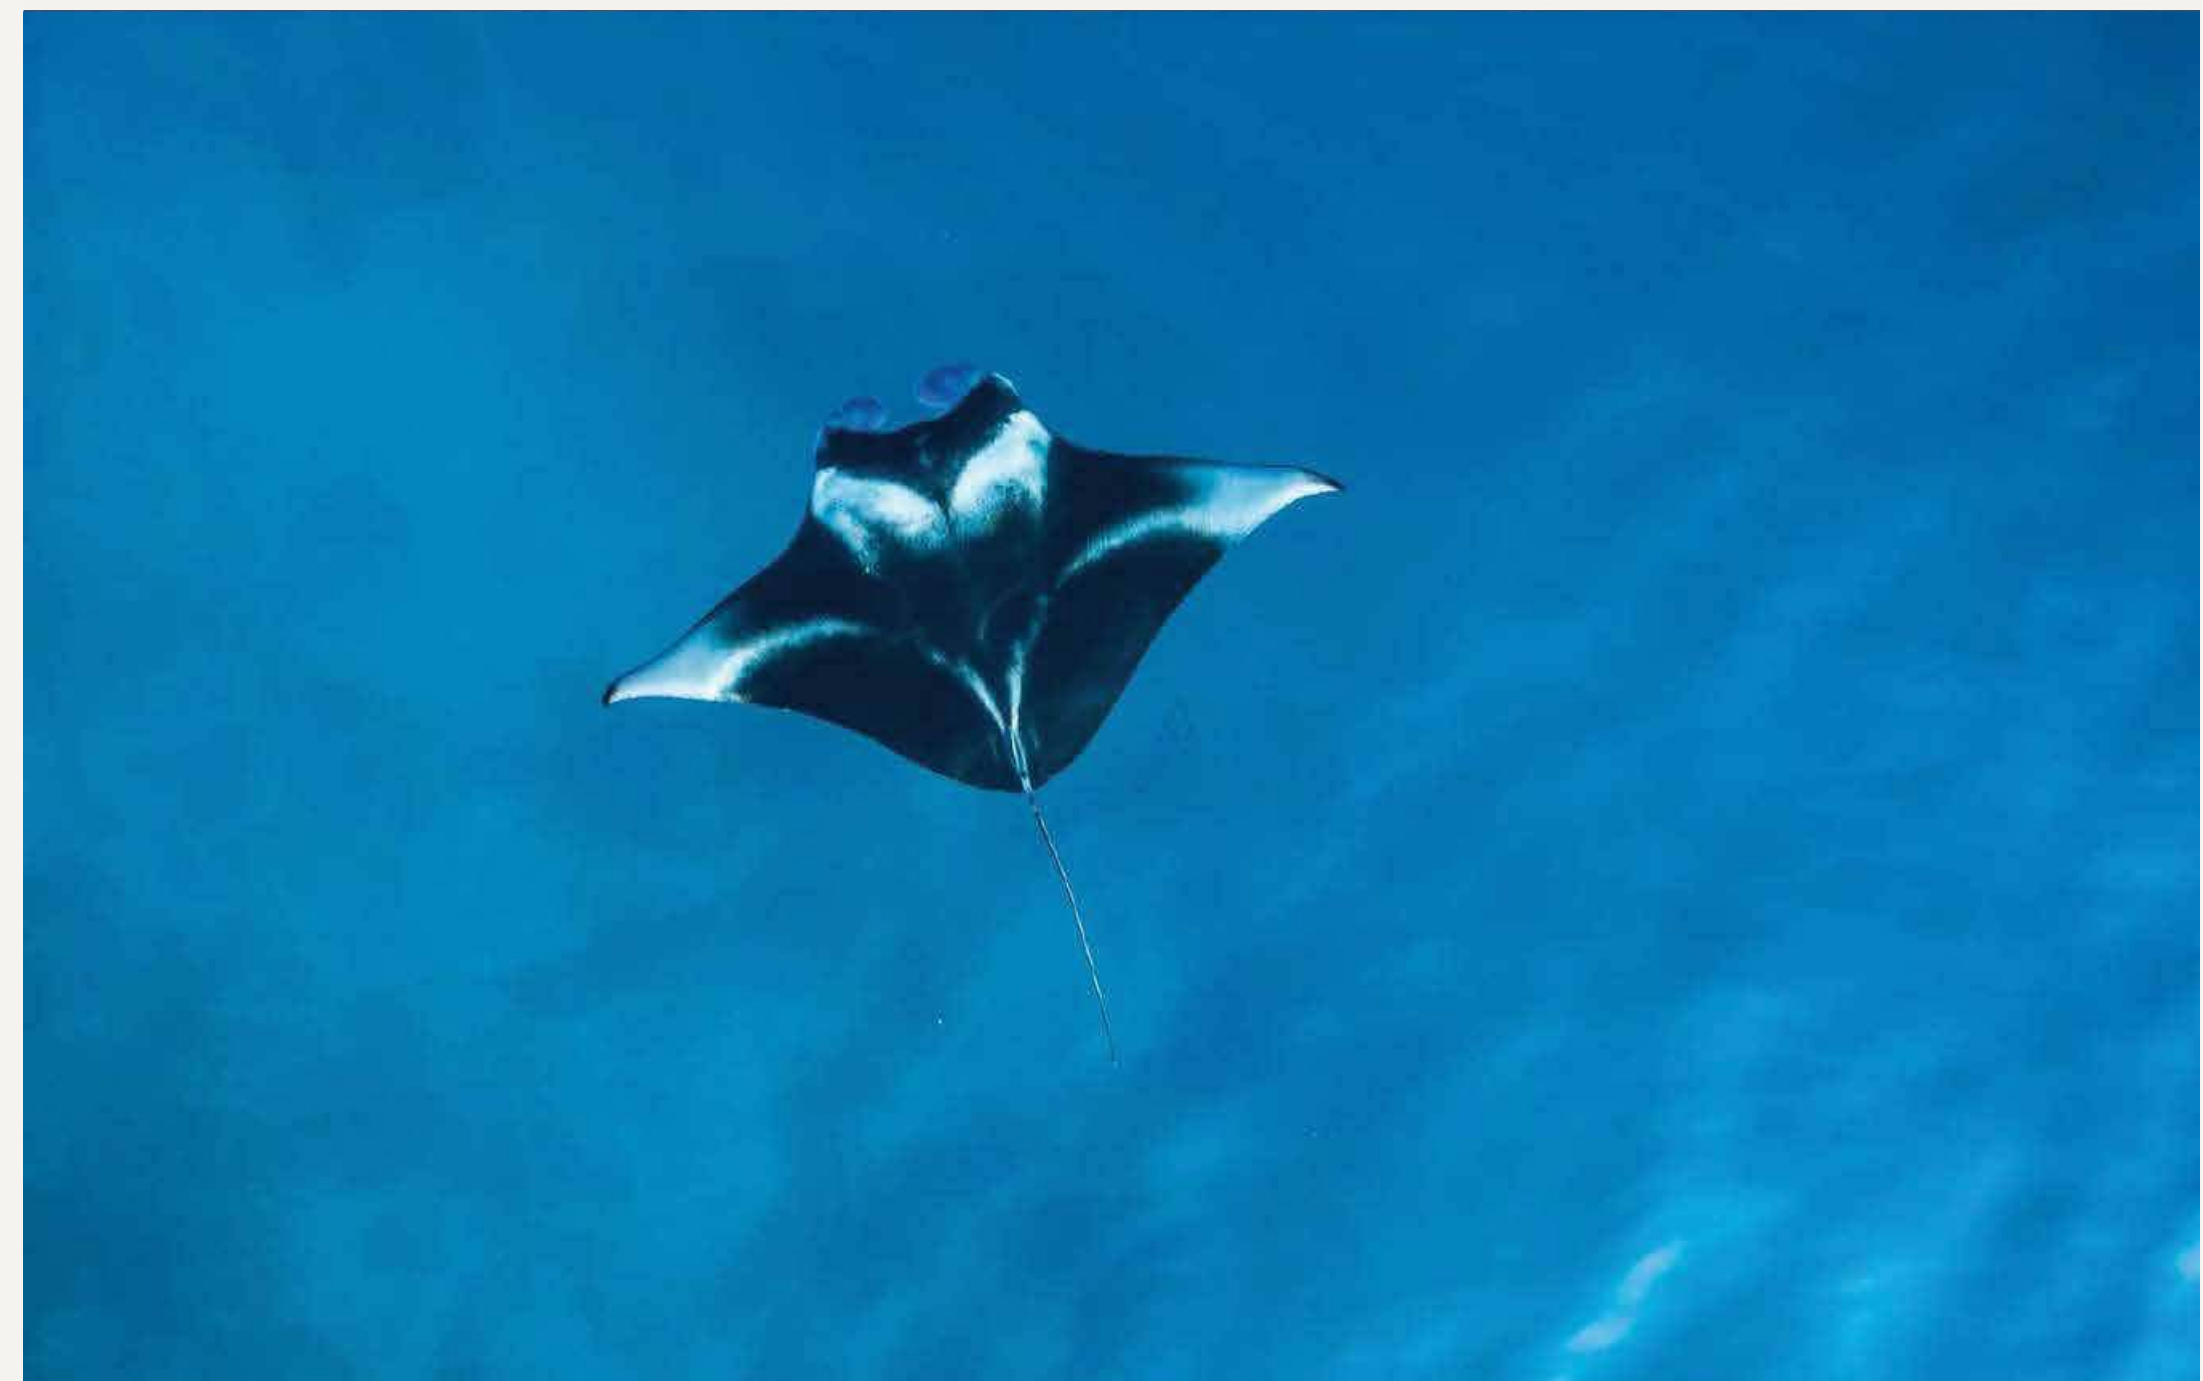

We will return to the boat for a short sail toward Kalong Island, known for the thousands of bats living in its mangroves. Our crew will organize a cocktail party on our sun lounge at sunset when the flying foxes take to the sky in search of fruits on the main island.

Day
02

Manta Point & Gili Lawa Darat

This morning, we will explore Makassar Reef, also known as Manta Point, where you will have the opportunity to swim with graceful manta rays. This long, shallow reef, located between the islands of Komodo and Tatawa Besar, is where the currents bring plankton-rich water, creating the perfect feeding ground for the mantas. In the afternoon, we will head to the northern side of the park near the islands of Gili Lawa Darat and Gili Lawa Laut, renowned for some of the best dive sites in Indonesia. Here, you can encounter trevallies, groupers, sweetlips, barracudas, and white-tip reef sharks. Before sunset, we will hike to a ridge for a spectacular view, allowing us to admire the entire bay and its turquoise waters.

We will explore the island, where we can watch local shipwrights handcraft traditional boats using simple tools and techniques passed down through generations. This afternoon, you can choose to hike the rugged volcano or explore one of the nearby reefs. Hot Rock Reef, ideal for both snorkeling and diving, emits hot gas bubbles through fissures, offering a unique underwater experience.
